RASE KIKHI

Bachelor of Computer Applications (BCA) Graduate

Kohima, Nagaland — +91 8787890646 — kerasekikhi@gmail.com — linkedin.com/in/rasekikhi

PROFESSIONAL SUMMARY

Recent Bachelor of Computer Applications graduate with an interest in Cybersecurity. Built a strong foundation in programming, computer networks, operating systems and databases during my studies. My final year project using **Python** provided practical exposure to AI-based application development. I am eager to continue learning through higher studies, practical projects and industry exposure.

EDUCATION

Bachelor of Computer Applications **2023–2026**
St Joseph University, Chumoukedima, Nagaland
CGPA: 6.65/10

Higher Secondary (NBSE) **2023**
St John Higher Secondary Residential School, Dimapur
71.20%

TECHNICAL SKILLS

Programming: Python — Basic knowledge of C — C++ — Java — SQL
Web Technologies: HTML — CSS
Core Concepts: Computer Networks — Operating Systems — Database Management Systems
Tools: Visual Studio — Android Studio — Anaconda — Gradio — Microsoft Word — Microsoft Excel — PowerPoint
Competencies: Adaptability — Teamwork — Willingness to Learn

ACADEMIC PROJECT

Multilingual Emotion Aware Text to Speech System using XTTS v2 **2026**

- Developed a **multilingual text-to-speech application** using **Python**, **XTTS v2** and **Gradio**.
- Implemented **emotion-aware speech generation** and **voice cloning**.
- Designed a **user-friendly interface** for text input, language selection and speech generation.
- Integrated AI model components, tested functionality and debugged the application.
- Strengthened practical skills in **Python**, AI integration and software development.

INTERESTS
